

## WIRING DIAGRAM

## One LEF-5 with Four Doors

Notes:

The master talks to the doors by pushing buttons 1, 2, 3 and 4. Release the door by depressing the door release button, and selecting one of the door stations.

The RY-PA is rated at 12V ~ 24V ac/dc at 1 amp.  
22 awg = 650 feet                      18 awg = 1500 feet  
Shielded cable is recommended.
