

AC-HOST

Embedded Server Host for AC Nio™ Essential Licenses

The AC-HOST is a Linux-based embedded server that is used as a host for the AC Nio™ Essential License management software. It requires one license and is sold separately.

The AC Nio™ Essential License can manage an AC Series system of up to 40 doors and cameras. It does not support systems with the ACS-ELV or ACS-IO starter kits, nor does it allow partitioning.

- Remote web-based management
- Compact form factor
- Supports applications of up to 40 doors

CPU Broadcom BCM2711BO quad-core A72 @ 1.5 GHz

RAM 2 GB LPDDR4 SDRAM

Storage 16 GB microSD, A1 rated

Ports 2 USB 3.0, 2 USB 2.0

Network Gigabit Ethernet

Protocols IPv4, IPv6, TCP, UDP, HTTPS

Dimensions 4-1/2" H x 4-1/2" W x 1-1/2" D
