

AC-IOE

Eight-Port I/O Expander Board

The AC-IOE expands the number of inputs and outputs, or floors, in an ACS-IO or ACS-ELV starter kit by eight. Communicating via RS485, this controller can be connected via AC-STRIP or standard RS485 wiring.

Up to seven AC-IOE can be added to the ACS-IO or the ACS-ELV kits.

- **Eight dry contact inputs (per door)**
- **Eight dry contact solid state relays (per door)**
- **UL and ULC listed (UL 294/ULC S319-05)**

Power Source 12V DC (drawn from main board)

Contact Rating 30V DC @ 500A

Dimensions 3-1/2" H x 3-3/4" W
