# AIPHONE

AC Nio™
Access Control Management Software

AC Nio access control management software is used to program access control systems and manage their everyday functionality.

Licenses exist for different deployment sizes that range from 40 to unlimited doors and cameras.

AC Nio software can be installed on a local PC or server, or hosted on AiphoneCloud as AC Nio Cloud. For more details, visit https://www.aiphone.com/kb/ac-nio-licensing-options/ or scan the QR code.

- **Simple, intuitve user interface streamlines everyday tasks and bulk changes**
- **Dashboard can be personalized with widgets and shortcuts**
- **Doors and devices can be monitored in real-time**
- **Smart automations and complex permissions are easy to configure with drag-and-drop programming**
