

AC SERIES

ACCESS CONTROL SOLUTIONS

UNCOMPROMISED SECURITY

INTRODUCING

AC Nio™

ACCESS CONTROL SOFTWARE

An intuitive and scalable access management software designed for small and medium businesses. Easily manage your building's security with our enterprise-level features, helping you enhance security, streamline access management, and improve operational efficiency.

WHY USE ACCESS CONTROL?

ENHANCED SECURITY

Limit entry to authorized personnel only, reducing the risk of unauthorized access and security breaches.

MONITORING & ACCOUNTABILITY

Track access events, including who accessed what and when, for auditing and security purposes.

CONVENIENCE & EFFICIENCY

Simplify access for users through keycards and mobile apps, reducing the need for security personnel and physical key management.

WHAT SETS US APART?

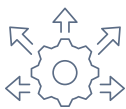

POWERFUL & INTUITIVE

Our customizable dashboard features a clean, modern design. Easily manage admin permissions, customize access schedules, and receive real-time security alerts.

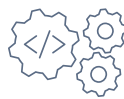

MULTIPLE HOSTING OPTIONS

We offer a range of deployment solutions, including embedded, on-site, and an upcoming cloud option.

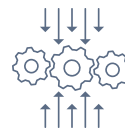

DESIGNED TO SCALE

Whether you need to secure a multi-site facility or a small location, the AC Series has the flexibility to adapt to your security environment.

NIO SCRIPTING ENGINE

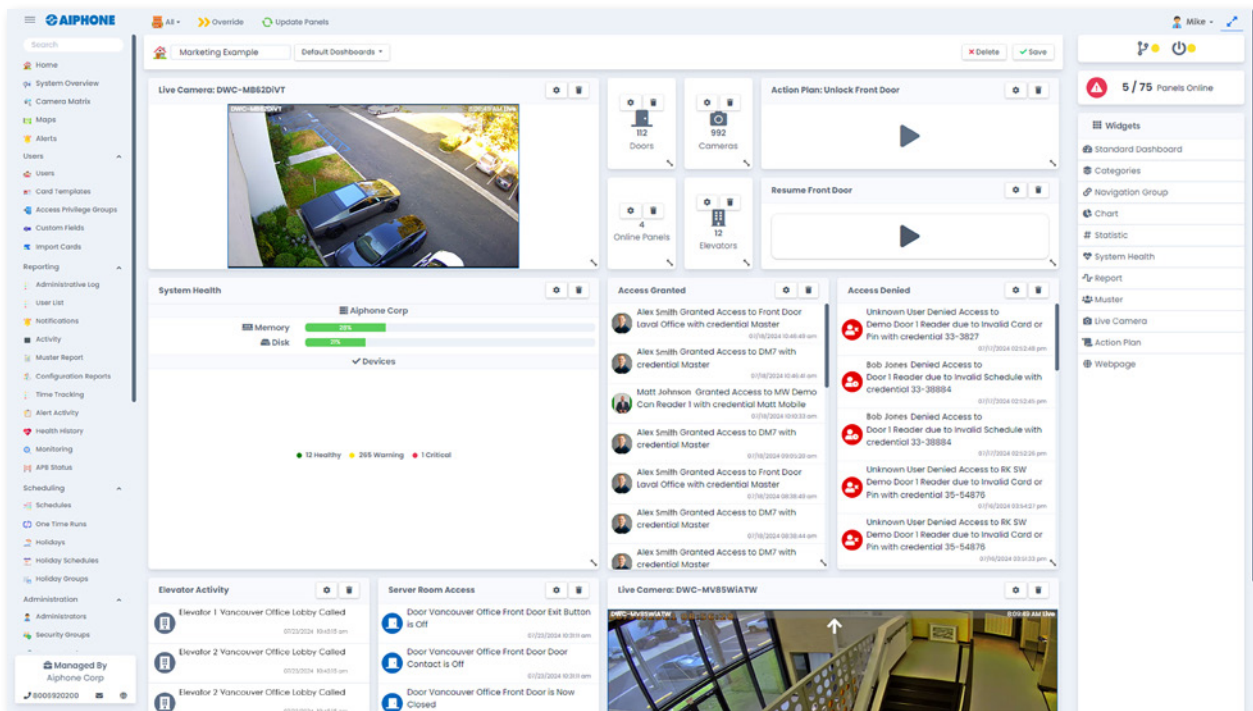

Third-party integration is easy with our Open APIs. Control external applications with our Nio scripting engine.

INTEGRATION

Combine the AC Series with intercoms, video management solutions, and wireless locks for a unified security ecosystem.

KEY FEATURES

DAILY TASK MANAGEMENT

Manage credentials and run reports—all from a customizable dashboard with intuitive drag-and-drop widgets, shortcuts, and graphs.

BULK OR COMPLEX TASKS

Simplify bulk changes, partition scoping, and permission management. Control sophisticated conditional actions such as triple swipe, special card/code, duress code, and input.

PARTITION ACCESS AND PRIVILEGES

Administrator permissions are fully customizable, allowing you to precisely define what each administrator can view, edit, delete, and manage.

NOTIFICATION MANAGEMENT

Personalize notifications based on specific criteria or type of notification. Send bulk notifications to specific administrator groups with multiple conditions applied.

ACTIVE DIRECTORY INTEGRATION

The AC Series automatically synchronizes Security Groups with Active Directory, eliminating the need to manage users across multiple systems.

BADGE DESIGN AND ISSUANCE

Create professional photo badges with a built-in design tool that allows you to tailor them with fields, images, QR codes, barcodes, and more.

ACTIVE MAPS

Active Maps provide an interactive, real-time view of your facility. Keep track of users and their locations all within a single, intuitive interface.

YOUR SECURITY ECOSYSTEM

Intercom

Pair with any Aiphone intercom for an added layer of protection and control. Unlock advanced integration with the IX|IXG Series:

- Triggered call-in
- Unified alerts
- Integrated lock control and door release
- Access video recordings and images from a third-party VMS

AC KEY

Unlock doors with ease

- Eliminates the need to carry physical credentials and allows you to unlock doors using mobile devices.
- Create visitor passes by specifying start and end dates. Share the access link directly with visitors via text or email.

AC NIO ADMIN

Administrator settings made simple

- Add, edit and monitor all your sites, locations and users
- Issue credentials, revoke access, view recent alerts and notifications
- View real time status of doors, floors, inputs and outputs

HARDWARE

Our hardware delivers consistent performance and reliability, simplifying maintenance and installation.

AC-2DMB AC-2DMW

Two-Door Controller

3-1/2" H x 10" W x 2-3/8" D

- Over the door design with built-in motion detection
- PoE provides power to locks and readers
- Browser-based programming
- On-board LCD status screen
- Available in black or white

ACS-2DR

Two-Door Access Control Starter Kit

- One master controller, one AC-2DE expander board, and two AC-STRIPs
- Sold separately for AC-CA1 enclosure

ACS-2DR-C

Two-Door Starter Kit with Enclosure

19-3/8" H x 13-5/8" W x 3" D

- 2 to 8 door controllers
- Dedicated wet output for each lock
- Expand up to 24 inputs, 16 outputs, and 8 Wiegand reader inputs
- On-board LCD status screen
- Stores up to 50,000 events locally
- OSDP version available

AC-PROX-1G

Proximity Reader

4-7/16" H x 1-5/8" W x 3/4" D

- Mullion and 1-gang combo indoor/outdoor proximity reader
- Wiegand output
- 125kHz

AC-10K-1G

Proximity Reader with Keypad

4-5/16" H x 3" W x 11/16" D

- 1-gang indoor/outdoor proximity reader with capacitive keypad
- Wiegand output
- Program access codes from AC Nio™
- 125kHz

AC-10K-M

Mullion-Mount Proximity Reader with Keypad

6-1/8" H x 1-3/4" W x 15/16" D

- Slim mullion mount indoor/outdoor proximity reader with capacitive keypad
- Wiegand output
- Program access codes from AC Nio™
- 125kHz

AC-CA1

Trove1 Starter Kit
with Enclosure

18" H x 14-1/2" W x 4-9/16" D

- Altronix™ Trove1 enclosure is larger with a removable backplane
- Includes eFlow6NB UL listed power supply
- External power for each strike
- Altronix battery-backup supplied separately, installed inside the enclosure

ACS-IO

I/O Starter Kit
with Enclosure

19-3/8" H x 13-5/8" W x 3" D

- One master controller and one AC-IOE
- Expandable to 64 inputs and 64 outputs per door master controller with 8 AC-IOE
- Expand integration possibilities for access control system
- Monitor unmanaged doors

ACS-ELV

Elevator Starter
Kit with Enclosure

19-3/8" H x 13-5/8" W x 3" D

- Supports up to 64 floors per master controller
- 64 floors can be split between two cabs in intervals of 8
- Enhances access control management capabilities
- Reader inputs on AC-2DE for elevator access

AC-PC AC-PF AC-PT

Proximity Card, Fob, and Tag

- Card and fob are ABS; tag is adhesive-backed PVC
- Two format versions: standard HID® 26-bit and Aiphone 40-bit
- AC-PC-40 proximity card 40-bit format
- 125kHz

AC-BT-10K

Bluetooth Reader with Keypad

4-3/16" H x 3-1/8" W x 1" D

- 1-gang indoor/outdoor Bluetooth® reader with capacitive keypad
- Wiegand output
- Supports STiD Mobile ID for Google Android™ and Apple™ iOS
- Program access codes from AC Nio™

AC-BT-M

Bluetooth Reader

4-3/8" H x 1-11/16" W x 7/8" D

- Slim mullion mount indoor/outdoor Bluetooth® reader
- Wiegand output
- Supports STiD Mobile ID for Google Android™ and Apple™ iOS
