

AiphoneCloud

SIM Billing Guide

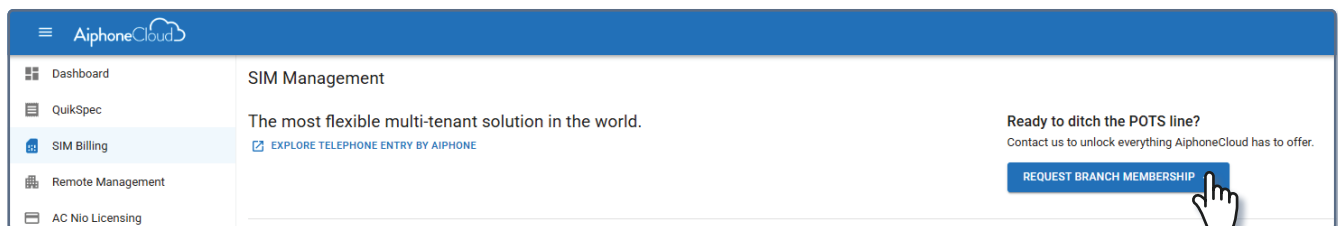

This guide goes over how to activate the SIM card on an IXGW-TGW Cloud Gateway Adaptor in AiphoneCloud. This guide assumes that the rest of the system has been configured either in IXG Support Tool or Remote Management, including having an IXG Portal account associated with it.

Navigate to <https://aiphone.cloud>. If an account already exists and is part of a branch, enter its credentials and click **Log In**. After logging in, navigate to **SIM Billing** on the side menu.

The image shows the AiphoneCloud login page. At the top is the AiphoneCloud logo. Below it are two input fields: 'Email Address' with the placeholder 'example@email.com' and 'Password' with a masked password '*****'. To the right of the password field is a small icon of an eye with a slash through it. Below the password field is a link that says 'FORGOT YOUR PASSWORD?'. At the bottom center is a large blue button labeled 'LOG IN'. Below the 'LOG IN' button is a link that says 'Need an account? REGISTER HERE'. A hand cursor icon is pointing at the 'LOG IN' button.

If an AiphoneCloud account has not yet been created, click **Register Here** beneath the log in button to make one, then log in as normal. Once the account has been created, navigate to **SIM Billing** on the side menu, then click **Request Branch Membership**. This will send an email to notify Aiphone administrators. Once the message is processed, the new user will be onboarded. The next steps cannot be completed until the request is processed.

Navigate to **SIM Billing** on the side menu. When prompted, log in with the IXG Portal account associated with the site. A list of sites managed by that account will appear. Click one of them to proceed.

billed on the 18th of every month

SUBSCRIBE

A pop-up window will appear, detailing the terms of the selected plan. This includes how much will be charged immediately to activate the SIM card and begin service, which will be a prorated amount for the rest of the billing period. The amount listed next to **Due next billing period** is how much will be charged monthly going forward on the 18th of each month. Click **Subscribe**.

 *If the data is exhausted, the registered card will be charged automatically to purchase an additional .5 GB of data to prevent interruption of service.*

Subscribe to a Cloud Gateway SIM Data Plan

The plan will take effect immediately and a prorated amount will be charged. The regular monthly plan rate will be billed at the start of the next service period.

Subscribing to 2 GB Plan

2 GB Plan (D-SIM-TGW2G)
