

AiphoneCloud is a cloud platform built around Remote Management, allowing you to manage Aiphone intercom systems from anywhere. It's a new way of working with Aiphone that saves you time, money, and delivers more value to your customers.

Why use AiphoneCloud?

REDUCE SITE VISITS

Eliminate costly truck rolls. Make the visits virtual and respond to customer needs from your office.

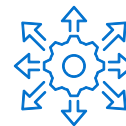

SAVE TIME ON SETUP

Configure complex systems in minutes with an intuitive interface that makes setup fast and simple.

STAY RESPONSIVE

Perform system health checks remotely. Minimize downtime and resolve issues without site visits.

CUSTOMIZE WITH EASE

Tailor settings for each customer's unique requirements. Flexible settings adapt to every project.

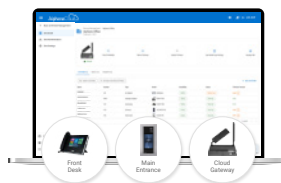

What's on AiphoneCloud?

From system design to management, AiphoneCloud centralizes everything you need.

QUICKSPEC SYSTEM DESIGN

Create a comprehensive bill of materials for any project or application in minutes.

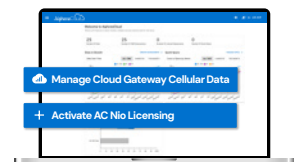

REMOTE MANAGEMENT

Configure and manage intercom systems remotely through an intuitive and easy-to-use interface.

SHARED ACCESS

Grant colleagues and property managers access to update systems. Easily change tenant details and enroll app users.

ADD-ON SERVICES

Manage services like cloud gateway cellular data plan and AC Nio license activations, all on AiphoneCloud.
