INSTRUCTIONS

1 NAMES AND FUNCTIONS

MY-1AD

1. Handset
2. Chime volume control
3. Video monitor (4” CRT)
4. DOOR RELEASE button
5. Video monitor button
6. Contrast switch
7. Brightness control

Mounting accessories;

Stand & screw (x 2)  Screw (x 4)  Wood screw (x 4)
(for desk use)      (for mounting to gang box) (for mounting to wall surface)

Wall-mounting bracket

2 SYSTEM FEATURES

*MY-1AD is a room master station with built-in video monitor for use with MY-DA video doorstation.
*Confirm a caller visually before you answer.
   Picture comes on at video monitor right after call button is pressed on video doorstation.
*Employs a 4- inch direct view and flat screen monitor.
*Monitor button allows you to see the outside without picking up handset.
*Door release button to activate electric door release.
Operation
DO NOT HOLD HOOK SWITCH DOWN BY BALL-POINT PEN, ETC. WHILE PICKING UP HANDSET. THE CHIME TONE SOUNDTHRU THE HANDSET RECEIVER ELEMENT AND COULD CAUSE HEARING DAMAGE.

Installation
1. DO NOT CONNECT ANY TERMINAL ON ANY UNIT TO AC POWER LINES.
   When you mount MY-1AD unit in place of existing bell or chime, be sure to disconnect wires from the present transformer.
2. DO NOT OPEN THE FRONT COVER OF MY-1AD UNIT, WITHOUT FIRST REMOVING PLUG OF POWER SUPPLY FROM AC OUTLET.
   The high voltage is loaded on the monitor unit inside.
3. Do not drop or hit the unit. This may cause damage to the picture tube.
4. Avoid running the connecting wires through doors, windows or between furniture, which may pinch and disconnect the wires.
5. IMPORTANT—
   Use a parallel 2-conductor cable. When using existing two wires, strictly observe that the two wires are of the same cable. Do not use any of the following wires, as they will seriously affect the quality of picture and communication.
   * coaxial cable; * two separate and individual wires; * a pair in multi-conductor cable.
6. In case noise from power supply line is induced, take terminal on MY-1AD unit to earth ground.

Installation location
1. Do not install MY-1AD unit in a place where it is exposed to;

Installation height
Determine MY-1AD installation height so that the center of the video monitor would be at the convenient eye level: adults’ average height minus 100 mm (4”).

Maintenance
1. Clean your MY-1AD equipment with a soft cloth dampened with neutral household cleanser. Never use thinner nor lacquer, benzine, etc.
2. Do not splash water directly on unit.

Note: MY-DA & MY-1AD are available in a set box, together with power supply.
Models: MYS-1ADP(B), MYS-1ADP(C) & MYS-1ADP(D), each with PS-18YB, PS-18YC & PS-18YD.
(1) Actual terminal location

- **A1, A2**: Connect to [A1, A2] terminals on MY-DA (non-polarized).
- **S, SG**: Connect to [1, 2] terminals on IER-2. (non-polarized).
- **L+, L-**: Connect to electric door release and bell transformer.

DC output plug with cord approximately 190 cm (6' 3'') long.

(2) Wall mounting

(3) Desk-top use

Select a location where the MY-1AD unit will not fall or where the cable may cause tripping.
NOTES:

For connecting between video door station and MY-1AD, do not use coaxial cable, or two separate and individual wires or a pair in multi-conductor cable. Use only a straight 2-conductor cable.

In case noise from power supply line is induced, take terminal on the MY-1AD unit to earth ground.

Locate MY-1AD unit within convenient reach of AC outlet. — DC output cord length: approx. 1.9 m (6' 3")

Do not attempt to lengthen the DC output cord. It will seriously affect the quality of the picture and communication.
• Receiving a call from doorstation:

1. Momentarily depress CALL button.
2. 4-stroke chime sounds and picture appears instantly.
3. Pick up handset to reply. When the picture shuts off, depress MONITOR button.
4. To activate the electric door release, depress and hold DOOR RELEASE button.
   The visitor may open while the buzzing sound is heard.

    NOTE:
    If you do not reply, the picture shuts off approximately 45 seconds after chime tone sounds.

• Monitoring the entrance area:

Depress MONITOR button.
The picture appears on the monitor for approximately 2 and half minutes.
Depress MONITOR button again to cancel.

    NOTE:
    Inside sound will not be heard at the doorstation.

• Adjusting contrast;

   LEFT    MIDDLE    RIGHT
   DAY · NIGHT    DAY · NIGHT    DAY · NIGHT
   SOFT    MEDIUM    STRONG

   (BOTTOM VIEW)

Can be adjusted to 3 levels as desired. At the entrance where it is dark even in the daytime, put the adjustment switch to the NIGHT position and turn down the brightness.

• Adjusting brightness;

   BRIGHT
   DARKER    BRIGHTER

   (BOTTOM VIEW)

   Turn the knob counterclockwise to make the picture brighter.

• Adjusting chime volume;

   TONE VOL.
   HIGHER    LOWER

   The chime call tone can be adjusted from low to high volume according to the room conditions.
SPECIFICATIONS

*Power source : DC 18V. Use a power supply adaptor PS-18YB, 18YC or 18YD.
*Current consumption : 0.9A maximum. 0.15A in standby mode.
*Calling : 4-stroke electronic chime
*Communication : Simultaneous with handset.
*Wiring : Single pair, straight conductors (non-polarized) between video door station and MY-1AD.
*Wiring distance :
