IP INTERCOM

EMERGENCY SOLUTIONS

IP INTERCOMS FOR EMERGENCY RESPONSE

In critical situations, every second matters. The IX|IXG Series provides instant, reliable emergency communication between those in need of assistance and security personnel. Our solutions deliver everyday security to protect people in parking garages, on campuses, and around public spaces.

INTEGRATION

DIAL OUT
Place or transfer calls to security operation centers or emergency services with SIP.

STREAMING
Integrate third-party IP cameras and video management systems with ONVIF.®

ACCESSIBLE & DURABLE
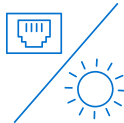

ADA COMPLIANT
Discern stations with identifiable bright LED lighting, red call button, and prominent braille signage.

WEATHER & VANDAL RESISTANT
Call stations withstand harsh weather conditions and can endure high-traffic areas with their durable, stainless steel design.

INSTALLATION & MONITORING MADE EASY
FLEXIBLE INSTALLATION OPTIONS
Delivers reliable power with hardwired or solar setups for any application and environment.

DEVICE CHECK
Verify status of emergency station camera, speaker, call button, relay inputs, and outputs to ensure consistent performance.

EMPOWER SAFETY WITH AIPHONE'S EMERGENCY COMMUNICATION

SEAMLESS INTEGRATION WITH LEADING SYSTEMS

Genetec™   LENEL:S2   milestone

ALERTUS®   SOFTWARE HOUSE

Aiphone's emergency solutions easily integrate with industry leaders like Genetec, Lenel S2, Milestone, Alertus, Software House, and more. These integrations ensure efficient management of intercoms, video surveillance, access control, and alarm systems, enhancing overall security.

Our intercoms are SIP and ONVIF® compliant, allowing seamless interoperability with leading providers of IP cameras, video management systems, and access control. This open architecture empowers you to build a customized security ecosystem that evolves alongside your needs.

CREATE A COMPREHENSIVE SECURITY ECOSYSTEM

Secure every location on your property with the IX|IXG Series IP Video Intercom System. One solution for communication, emergency response, and access control.

IX–DVF–2RA   IX–DVF–RA
IP Video Emergency Call Station

11–11/16"H   7"W

· HD camera

· ADA compliant raised lettering and braille signage

· Standard and emergency calls

· PoE passthrough

· 2 contact outputs, 6 trigger inputs

· IKO8, IP65

IX–SSA–2RA   IX–SSA–RA
IP Audio Emergency Call Station

11–11/16"H   7"W

· ADA compliant raised lettering and braille signage

· Standard and emergency calls

· PoE passthrough

· 2 contact outputs, 6 trigger inputs

· IKO8, IP65

French versions available: IX–DVF–2RA–FR, IX–DVF–RA–FR, IX–SSA–2RA–FR, IX–SSA–RA–FR

We provide a unified security communication platform, offering ADA compliant emergency call stations, towers, and wall boxes.

IX–MV7–HB
IX–MV7–HW–JP
Touchscreen Answering Station with Handset

8–1/16"H   11"W   2–3/16"D

· 7" touchscreen

· 8 customizable speed dial buttons

· 2 contact outputs, 4 trigger inputs

· Audio and video recording capability

· Wall or desk mount

IX–MV7–B
IX–MV7–W
Touchscreen Answering Station

6–3/4"H   8–11/16"W   1–1/4"D

· 7" touchscreen

· 8 customizable speed dial buttons

· 2 contact outputs, 4 trigger inputs

· Audio and video recording capability

· Wall or desk mount

IXG MOBILE APP

· Video calling and answering

· Door release and relay control

· Intuitive user interface

IX–SOFT
PC Answering Station Software

· Complete answering stations features

· 50 customizable speed dial buttons

· Record custom message pages

· Interactive map

· Line supervision and device check

Short Tower

73"H
8"W
8"D

· Beacon is always lit and strobes
  during emergency call–in

· Available with a combination of
  a camera arm, speaker, or both

· Durable, lightweight aluminum
  makes installation easy

· ADA compliant intercom
  mounting height

· UL–514–A listed electrical
  box included at the base

· LED for station illumination
  in station over–hang

TWS-Z4

Zone 4 Solar Tower Set (also available for Zones 1 and 2)

Tower: 132"H   6"W

Solar Panel: 26-1/2"H   58-1/3"W   1-3/8"D

· Aluminum tower with 5052 aircraft grade
  aluminum electrical enclosure

· Solar panel and batteries for power

· Ubiquiti wireless point to point for network connectivity

ACCESSORIES

PS-POE
PoE Splitter

3-1/4"H   2-1/2"W   1"D

· Powers strobe light
  on emergency towers
  and wall boxes via
  PoE instead of using a
  separate power supply

· Compact design
  is discrete and
  easy to install

· Easily secures to
  mounting studs on
  back of stations
  or 1-gang box

IXW-MAA
Multi-Purpose Adaptor

4-1/4"H   8-1/4"W   2-3/8"D

· PoE

· 10 Form C relay outputs

· 24V AC/DC 500mA
  relay contact rating

· Mountable to a 170mm
  DIN rail or directly to a wall

MB-RF1
Retrofit Mounting Box

11-3/4"H   8-1/2"W   1-1/4"D

· Interface box for mounting
  an Aiphone emergency
  station onto a Code
  Blue® or Talk-A-Phone®
  tower/wall box

### TW-MKL
L-Bolt Mounting Kit

24" long   3/4" diameter

· Designed to securely
  mount Aiphone towers
  into a concrete base

· Includes mounting
  template to transfer
  onto plywood for
  easy installation

· Sold separately
  for pre-installation
  convenience
