

AIPHONE AND GENETEC INTEGRATION OVERVIEW

Integrating Aiphone IX | IXG intercoms with Genetec Security Center creates a unified security solution with top-tier user experience and support. By consolidating Aiphone audio, video, and access control into Security Center, we create a more efficient and responsive security solution.

Aiphone IX | IXG intercoms integrate with Sipelia™ for unified communication and Omnicast™ for video management. Answer Aiphone intercom calls and unlock doors directly through the Sipelia™ call window – no additional stations or software required. Stream and record intercom station video to Omnicast™ to capture unique camera angles and evidence of visitors.

KEY FEATURES

- Monitor and communicate with IX | IXG intercom stations from the Security Center client or Genetec Mobile app
- Control PTZ camera, door relay, and IX | IXG device outputs during a call
- Operate door release from Sipelia™ call window
- Transfer calls from Aiphone IX-MV7 stations to Sipelia™
- Broadcast messages to Aiphone Intercoms with Sipelia™ Public Addressing

Enhance your integrated security
with Aiphone and Security Center

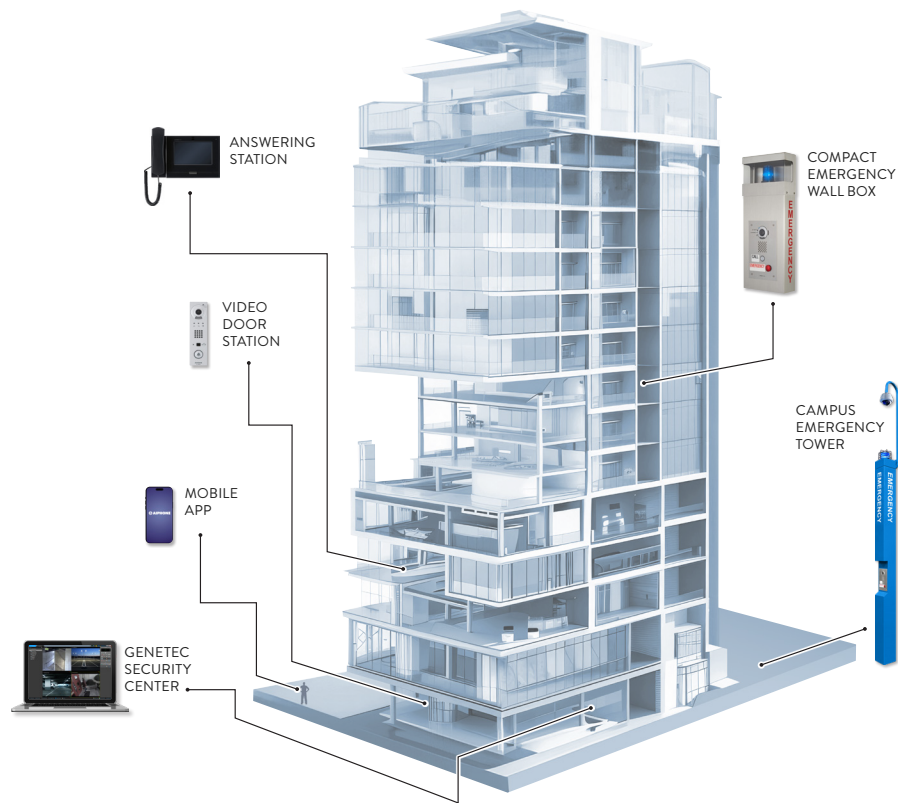

SIPELIA

- Answer calls to initiate two-way communication with live video
- Activate door release and other onboard relays

OMNICAST

- Stream and record video from IX | IXG intercoms
