

DESCRIPTION:

The IS-SS-RA-R is a stainless steel flush mount audio door station with an emergency call button. The unit is equipped with ADA compliant lettering and Braille signage. A call status indicator is included to meet ADA assistance requirements.

The emergency button will trigger two selectable relay outputs for activation of external systems or devices.

The IS-SS-RA-R unit will connect with CAT-5e or CAT-6 wire to any control unit in the hardwired IS system (IS-CCU, IS-SCU, or IS-RCU), giving you a greater capacity of rescue assistance subs. A directory strip for location identification is also provided. The unit is made of stainless steel and includes tamper resistant screws.

Flush mount with supplied back box or surface mount with SBX-IDVFRA.

FEATURES:

- Audio communication between master station and calling area
- Emergency call button
- Two selectable relay outputs
- ADA compliant lettering and Braille signage
- LED call status indicator
- Stainless Steel faceplate with tamper resistant screws

IS-SS-RA-R
