

### DESCRIPTION

IX-SOFT is a software answering station for the IX|IXG Series. Use IX-SOFT to call and communicate with IX Series stations across a network. Software answering station features include monitoring, paging, and door release. Check device functionality and network status of each station using the Line Supervision menu. Use the interactive map to quickly interact with door and answering stations by selecting them individually or by dragging to select a group. IX-SOFT requires a single, transferable lifetime license per PC, with bundles available with 3, 5, or 10 IX-SOFT.

### FEATURES

- Place and receive calls and pages
- Monitor door stations
- 50 programmable speed-dial buttons
- Call history
- Call transfer
