

Setting a Custom Wallpaper on an IXG-DM7-HID* Station

Introduction and Parameters

This guide covers how to add a custom wallpaper to an IXG-DM7-HID(A) entrance station using IXG Support Tool.

The wallpaper can be created using any photo editing software. It must be a 480 x 800 pixel .png image.

The default wallpaper text, "Welcome: Please Touch the Screen," is part of that image. If any message or instruction needs to be displayed on a custom wallpaper, it will need to be added to the new image before it is uploaded.

Instructions

Open IXG Support Tool, Navigate to **View(V)**, *Advanced* on the top menu.

On the left menu, navigate to **Entrance Station Settings**, Welcome Screen. Click **Browse** on the line with the desired entrance station, and use Windows Explorer to locate the image on the programming PC.

Entrance Station Settings			Welcome Screen					
Building Nu	Unit Numbe	Station Name	Welcome Screen Wallp	Image			Browse	Preview
				Display	File name			
01	204	Entrance Station1	<input checked="" type="checkbox"/>	<input type="checkbox"/>				

Instructions

The file name will appear next to the station. Click **Preview** to review the selected image. Check the boxes under **Welcome Screen Wallpaper** (if not already checked) and **Display**. Once the images have been applied to the appropriate stations, click **Save**.
