

## IX-MB

### Mullion Mounting Bracket for IX-DV

The IX-MB is a mullion mounting bracket for the IX-DV door station.

Its flexible design allows it to be installed to a door frame or mullion on either side of an entrance. The IX-MB conceals wiring to the door station without overbending cables.

If there is an external conduit, the wire knockouts can be used.

- Mounts IX-DV door station to a door frame or mullion

- Fits IX-DV door station and conceals wiring inside

- Clearance for Cat-5/6 cables prevents overbending

- Can overhang mullion on either side of the door

- Wire knockouts allow for installation when there is an external conduit

**Mounting** Surface mount directly to mullion or 1-gang box

**Material** Aluminum

**Dimensions** 8-1/8" H x 4-1/2" W x 1/2" D
