IX Series

Tyco[®] exacqVision[™] Integration

Platform and Version: exacqVision v21.06 Tested Stations: IX-DA, IX-DVM, IX-DV, IX-DVF Compatible Firmware: Version 6.0 or newer

Getting Started

This application note shows the required configuration to add compatible IX Series stations to Tyco[®] exacqVision[™]. These steps are meant to be followed after the general configuration of the IX Series stations has been completed. Please refer to the IX Series Quick Start Guide for more information.

Support Tool - Configuring ONVIF[®] and RTSP Credentials

On the left-hand side menu, expand **Station Information** and select **ID and Password**. This screen will allow the addition of an ONVIF®/RTSP ID and ONVIF®/RTSP Password. Both credentials are required for integration with the exacqVision[™] client. Special characters may be used when creating an ID and Password with Support Tool Version 8.30 or above.
