

IXG-2C7-L

IP Video Tenant Station

The IXG-2C7-L is an IP video tenant station with a 7" LCD touchscreen that is compatible with T-coil hearing aids. It can receive calls from other stations in the system and communication is hands-free (VOX).

Touching the key button will unlock a door or entrance station during communication. Tenants can summon the elevator to their floor with the elevator call button.

A history of received calls are maintained in its built-in memory, which can be expanded by adding a microSD™ card. Up to eight IXG-2C7-Ls can be installed in a single unit. Each can selectively communicate with other IXG-2C7-Ls in the same unit or call the unit's mobile apps.
