Hands-Free Video Intercom
JF Series
Reliable Security
Simple Functionality
Sophisticated Design
• Affordable Video System
  The JF Series has a color monitor to view images clearly and with great detail, at affordable prices.

• Clear Identification Day & Night
  In low light conditions, the video door station’s built-in white LED illuminators will activate. Identify visitors even at night.

• Both Hands-Free & Push-to-Talk
  When a call comes in, press the TALK button to begin hands-free VOX (voice operated exchange) communication.

• LED Talk Indicator
  The LED lights turn on when talking to visitors and turn off when listening, making communication easy.

• Option Button
  Controls an external device, such as an outdoor entrance light or secondary door release (with supplied option connector)

### JF Series Features & Functions

**Simple. Sophisticated. Security.**

- **Voice Memo & Entrance Message**
  Leave up to 3 voice memos (15 seconds each) to be heard at the master station. In addition, pre-record up to 2 entrance messages (10 seconds each) to manually control from the master station, but to be heard at the door station.

- **Auto LED Illumination**
  When environmental conditions are dim, LEDs automatically turn on so visitors can be seen in the dark.

- **Manually Record Visitors**
  Once communication is open between the door and master stations, visitors can be recorded manually by pressing the REC button.

- **Monitor Activities Outside**
  Discreetly keep an eye out for suspicious behavior through the door station lens.

- **Hands-Free Communication**
  Simply push the TALK button for VOX communication or hold down for push-to-talk.

- **Easy Installation**
  Connect the door station to the master station using only 2 wires!
