**JM-8Z Distribution Adaptor**

**DESCRIPTION:**

The JM-8Z is a distribution adaptor for the JM Series. The adaptor is utilized when homerun wiring is desired. The JM-4MED master station and each JM-4HD sub master station will connect to this adaptor using CAT-5e/CAT-6 cable. The JM-8Z can surface mount using the mounting holes or with the W-DIN11 mounting rail. One or two PS-2420UL power supplies are used, depending on how many sub master stations are connected.

**JM-8Z FEATURES:**

- Homerun up to 7 sub monitors
- 165' wiring distance to each JM-4HD
- Only compatible with JM Series

**SPECIFICATIONS:**

- **Power Source:** 24V DC - use PS-2420UL (1 per 4 JM-4HD)
- **Wire Type:** CAT-5e / CAT-6 for stations
  18AWG 2 conductor for power
- **Mounting:** Surface wall mount or DIN rail (W-DIN11)
- **Temperature:** 32-104°F (0-40°C)
- **Dimensions:** 4-5/16" H x 4-7/8" W x 2-7/16" D
- **Weight:** Approx. 0.46 lbs (210g)
