

## JO-DA,JO-DV,JO-DVF

### Video Door Stations for the JO Series

#### DESCRIPTION

The JO-DA is a surface mount plastic video door station. The JO-DV is an aluminum die cast surface mount video door station. The JO-DVF is a stainless steel flush mount video door station. All of these units work with the JO Series and connect to the master station or expansion station using an 18 AWG 2-conductor solid core cable. Each unit includes a camera, microphone, speaker, and call button. Tamper resistant screws are provided for mounting the JO-DV and JO-DVF units.

All JO Series door stations are available as part of a kit including the JO-1MD master station. JO-DV is also sold separately.

When the call button on the door station is pressed, the master stations will ring and the video from the door station will be displayed. Two-way communication is established by the master station by answering the call.

#### FEATURES

- Video camera with audio intercom
- Two-way hands-free voice communication
- Call button
- White LED illuminator for low light conditions
- 2-conductor wiring
- Surface (JO-DA, JO-DV) or flush mount (JO-DVF) styles available
- JO-DA and JO-DVF not sold separately
