

## JO-DA

### Video Door Station

The JO-DA is a surface-mount plastic video door station that is available in the JOS-1AW box set. The station includes a camera, microphone, speaker, and call button with low-light LED.

It connects to the JO-1MDW answering station or JO-1FD expansion station up to 330' away using 18 AWG 2-conductor solid core cable.

When the call button on the door station is pushed, the answering and expansion stations will ring and the video from the door station will be displayed. Two-way communication is established when the call is answered.

- **Two-way hands-free communication**
- **Call button LED automatically turns on in low-light conditions**
- **2-conductor wiring**

The JO-DA video door station is a component of the JOS-1AW box set, which also includes the JO-1MDW video answering station and PS-1820UL power supply. The JO-DA is not sold separately.

**Power Source** Supplied by answering station or expansion station

**Communication** Hands-free

**Camera** Type: 1/4" CMOS  
View Area: 2'1" vertical x 3'1" horizontal at 20"
