**MK-DVF-HID**

Vandal Resistant Black & White Video Door Station
With Built in Proximity Card Reader

**- INSTRUCTIONS-**

The MK-DVF-HID is an MK-series Black & White video door station and an HID ProxPoint Plus Card Reader, built onto the same stainless steel faceplate. The card reader provides electronic access to a building through a separate Access Control System, which is not supplied by Aiphone.

**INSTALLATION:**

1. For flush mounting, cut hole in wall and use supplied back box. Box dimensions are 4-⅜"W x 10-⅜"H x 1-⅜"D.
2. For surface mounting, use the SBX-DVF-P surface mount box. This box can mount to a standard 1-gang box or to any flat surface.

**Connecting the Reader to the Host:**

Connect the reader to the host according to the wiring table below and the host installation guide.

**WIRING DIAGRAM:**

**TESTING AND OPERATION:**

- When power is applied to the card reader, the LED will flash green three (3) times while the beeper beeps simultaneously. The LED will then turn red. This indicates that the microcontroller is operating properly.

- Present an ID card to the reader. (Hold card directly in front of reader.) The LED will momentarily turn green while the beeper beeps once, indicating that the card was read successfully.
