

The background of the entire page is a high-angle photograph of the New York City skyline. In the foreground, the Hudson River is visible with a large white ferry boat. Central Park's lush green trees fill the middle ground. Behind the park, a dense cluster of skyscrapers rises, including the Empire State Building with its iconic green spire and a tall, modern glass skyscraper on the right. The sky is blue with scattered white clouds.

# MULTI-TENANT BUILDING SECURITY

INTERCOMS & ACCESS CONTROL

# DESIGNED TO PROTECT EVERY PROPERTY

## IX|IXG Series IP Video Intercom

Powerful video intercom system with cloud-based management, mobile access, and integration capabilities.

## GT Series Analog Video Intercom

Retrofit-friendly analog video intercom system designed for diverse architecture needs.

The ultimate platform for all things Aiphone

Save time, money, and deliver more value to your customers.

### REMOTE MANAGEMENT

Configure and manage your IX|IXG Series in minutes through an intuitive and easy-to-use interface.

Get access to a full suite of powerful communication features instantly and tailor settings to your needs.

### SUBSCRIPTION MANAGEMENT & ADD-ON SERVICES

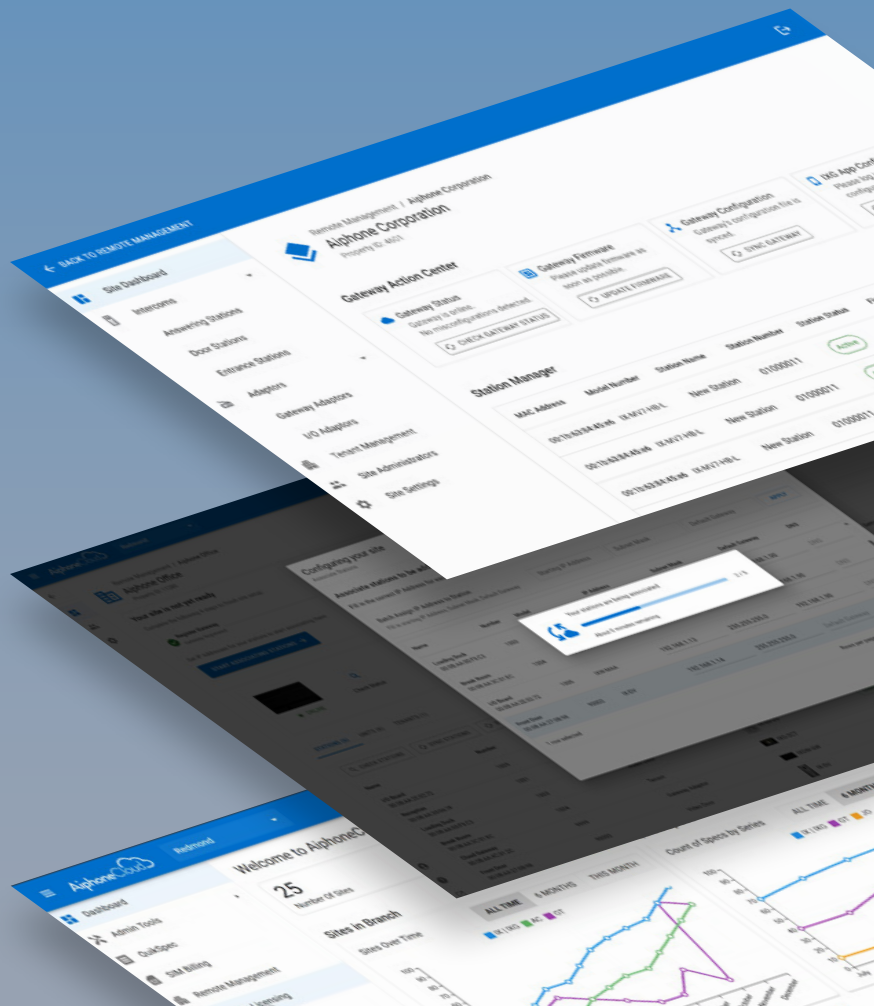

Manage cloud gateway cellular data plans and AC Nio license activations all in one cloud platform.

### SYSTEM DESIGN

QuickSpec simplifies and streamlines your design and quotation workflow, making projects easy to create, revise, and implement.

Learn more about  
AiphoneCloud

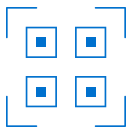

A man in a dark suit and blue tie is shown in profile, holding a blue smartphone. He is standing in front of a glass wall that reflects a city street with cars and buildings. Mounted on the wall is a silver, rectangular security device with a screen. The screen displays a QR code and some text. The man is holding the phone up to the device, as if scanning the QR code.

# MODERN SECURITY FOR COMMERCIAL COMPLEXES

Elevate security and communication in mixed-use buildings and multi-tenant high-rises.

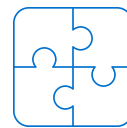

## CONTROLLED VISITOR ACCESS

Enable mobile access and custom QR codes for planned visitors and delivery personnel.

## BUILDING-WIDE BROADCAST

Automate live or pre-recorded emergency alerts and notifications to keep tenants informed.

## SYSTEM INTEGRATION

Integrate with leading access control, camera, and video management systems for greater security and visibility.

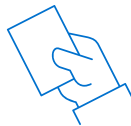

# SMARTER LIVING FOR APARTMENT COMMUNITIES

Experience modern, connected living with  
effortless access and convenience.

## IMPROVED RESIDENT SAFETY

Verify visitors from  
anywhere with  
two-way video  
communication  
before entry.

## CONVENIENT RESIDENT ACCESS

Enable quick access  
for residents with  
mobile credentials,  
keycards, or  
PIN codes.

## INCREASED MANAGEMENT EFFICIENCY

Track access records  
and failed access  
attempts to eliminate  
security vulnerabilities.

# BUILT FOR DIVERSE MULTI-TENANT SECURITY NEEDS

1

Choose IP or analog systems based on wiring and usage requirements, including door count, mobile credentials, and integration.

2

Select from a variety of door stations for entrances, gates, and any interior locations where visitors should request access.

3

Add answering stations to lobbies, offices, suites, and individual apartments to screen visitors before unlocking the entrance.

4

Combine access control with IP or analog systems for centralized visibility and permission control.

# Build a Comprehensive Security Solution

Access Control   Mobile Apps   IphoneCloud

## AC Nio Access Control

Configure every door, gate, and garage from one easy-to-use platform.

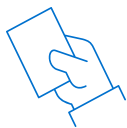

### AUDIT TRAILS

Track access records and failed access attempts to eliminate security vulnerabilities.

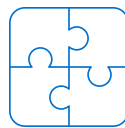

### PERMISSIONS

Tailor permissions for tenants, property managers, or service staff, with precise door, floor, and time schedules.

### CREDENTIALS

Choose from a full range of hardware and credential options, from proximity and smart cards to mobile credentials.

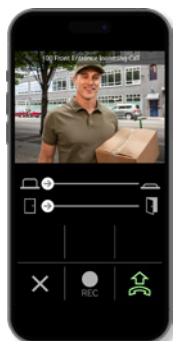

### INTEGRATIONS

Connect to third-party property management software, wireless locks, and mass notification systems to create a safer and smarter community.

# Mobile Apps

Where security and convenience are combined.

## IXG Mobile App

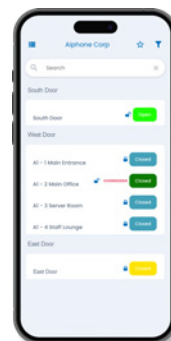

Enable tenants to use their devices to answer and unlock doors.

*When paired with access control, AC Key is available directly in the IXG Mobile App.*

## AC Key

Equip designated personnel with AC Key for secure access and the ability to send visitor passes.

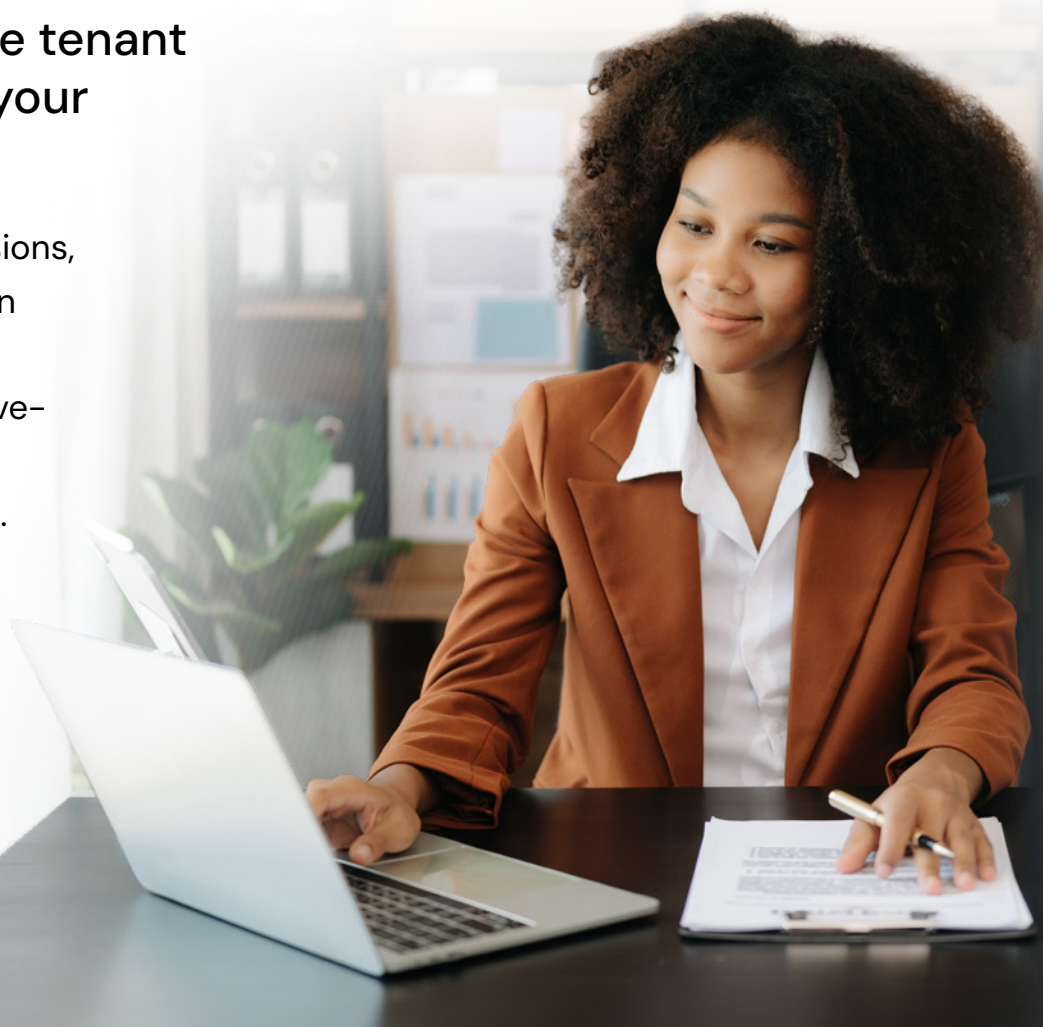

## AC Nio Admin

Configure AC Nio on the go. Set up access permissions, view access events, and manage user credentials from your phone.

# AiphoneCloud

Remotely update tenant information for your IX|IXG Series.

With assigned permissions, property managers can easily manage tenant updates, including move-ins, move-outs, and mobile app enrollment.
