

Integration of Aiphone IX|IXG Series with Salient CompleteView enables organizations to efficiently monitor, capture, and control video.

KEY FEATURES

- ✓ Stream and record 24/7
- ✓ Scalable centralized video management
- ✓ Interactive mapping
- ✓ Server-side motion detection

Enhancing security operations begins with consolidating critical systems. By integrating Aiphone with Salient CompleteView, operators can monitor, record, and manage video data directly from intercom stations – all while keeping full control over access points. With server-side motion detection, door release and other I/O functions can be triggered. Intercom calls become the focal point of the dashboard, ensuring that events are captured, logged, and acted upon without requiring multiple interfaces.

CompleteView's interactive mapping delivers advanced situational awareness by linking events to visual data. Security teams can receive automatic alerts, dynamically generate multi-camera views, and instantly overlay video streams onto site maps. When paired with intercom call activity, this

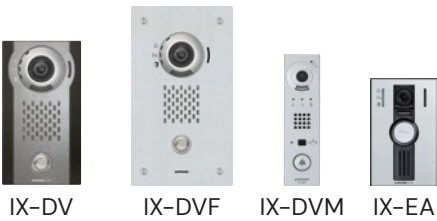

integration enables operators to quickly verify identities, assess conditions, and coordinate responses with precision.

Maintaining consistency across platforms is equally important. CompleteView provides a unified client experience on desktop, web, and mobile. Teams can monitor, verify, and respond from anywhere with the same highly responsive toolset. Intercom calls and live video are seamlessly accessible, reducing latency in decision-making and increasing operational reliability.

Together, Aiphone and Salient CompleteView deliver a centralized security platform. By bridging intercom and video management systems, organizations gain a technically robust solution that improves workflow efficiency, accelerates event response, and strengthens overall facility protection.

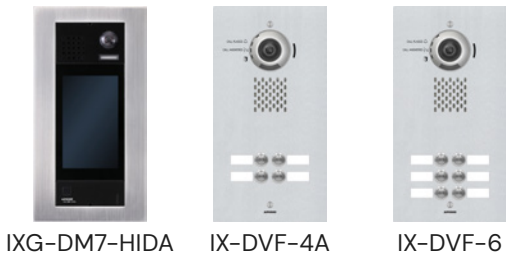

SUPPORTED DEVICES

SINGLE DESTINATION CALL STATIONS

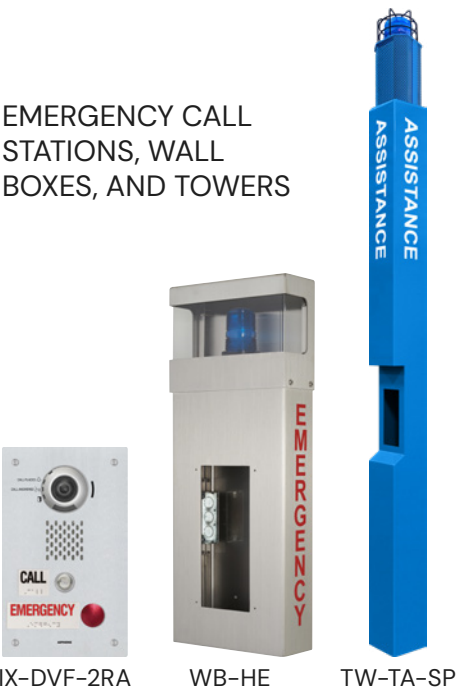

IX-DV IX-DVF IX-DVM IX-EA

SELECTIVE CALL STATIONS

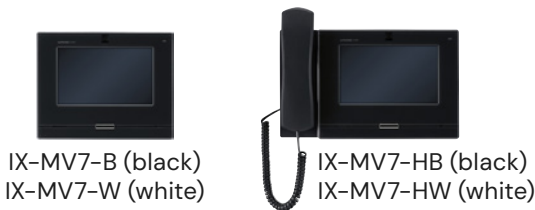

IXG-DM7-HIDA IX-DVF-4A IX-DVF-6

EMERGENCY CALL STATIONS, WALL BOXES, AND TOWERS

IX-DVF-2RA WB-HE TW-TA-SP

ANSWERING STATIONS

IX-MV7-B (black) IX-MV7-W (white)

Platform, Version	Salient CompleteView 7.6
Method	ONVIF® Profile S
Firmware	Version 8.81 for door and sub stations Version 4.83 for IXG-DM7-HIDA
Compatibility	All video IX IXG Series stations
