

TWO-WIRE VIDEO INTERCOMS

For reliable entry
security and visitor
communication

ESSENTIAL SECURITY

The foundations of security begin with the ability to see, speak with, and unlock doors for visitors. This powerful layer of protection allows you to identify and communicate with every individual before letting them inside.

Homes, small offices, schools, and retail stores alike can benefit from this essential level of security, ensuring a safer and more convenient experience for everyone.

SAFETY

Screen visitors and determine their intent before allowing them entry.

CONVENIENCE

Remotely answer and unlock doors for delivery vendors or trusted guests.

DETERRENCE

Discourage potential intruders with the presence of an intercom camera.

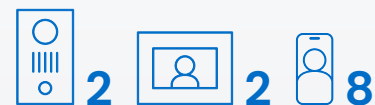

JV Series Video Intercom

- One door station and two answering stations
- IP54 rated to withstand dust and water
- IK08 vandal resistance
- Corrosion-resistant
- Nighttime LED
- 7" screen
- Picture memory
- Retrofit-friendly

JO Series Video Intercom and Mobile App

- Two door stations and two answering stations
- Free mobile app for up to eight devices
- IP54 rated to withstand dust and water
- IK08 vandal resistance
- Nighttime LED
- 7" touchscreen
- Video recording
- Retrofit-friendly

JP Series Video Intercom with Call Partitioning

- Four doors stations and eight answering stations
- Wide-angle camera with advanced light adjustment
- Auto image capture
- IK08 vandal resistance

Video Intercom & Mobile App

**Identify visitors and communicate
with them onsite or remotely.**

Physical Station

- 7" touchscreen provides a detailed view of anyone requesting access
- Clear communication allows visitor intent to be determined
- Hardwired station is not impacted by internet outages
- Built-in memory stores up to ten recordings
- Adding a microSD™ card expands memory without monthly fees
- Provides power to video door station without batteries

Mobile App

- See and speak with visitors from virtually anywhere
- Monitor your entrance anytime, from any location
- Zoom in and out for greater detail
- Get convenience and safety – even on the go!
- Download from Google Play™ or App StoreSM

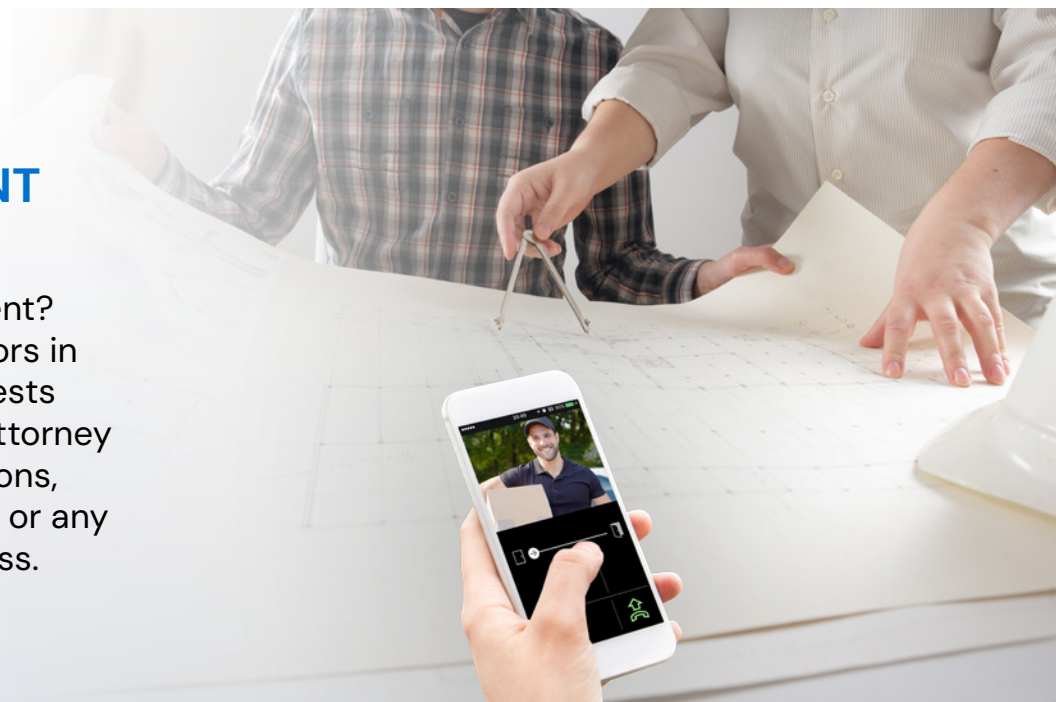

PERFECT FOR SMALL OFFICES

Avoid missing any visitors when your receptionist goes to lunch. With this mobile app solution, other colleagues can screen visitors directly from their smartphone or tablet.

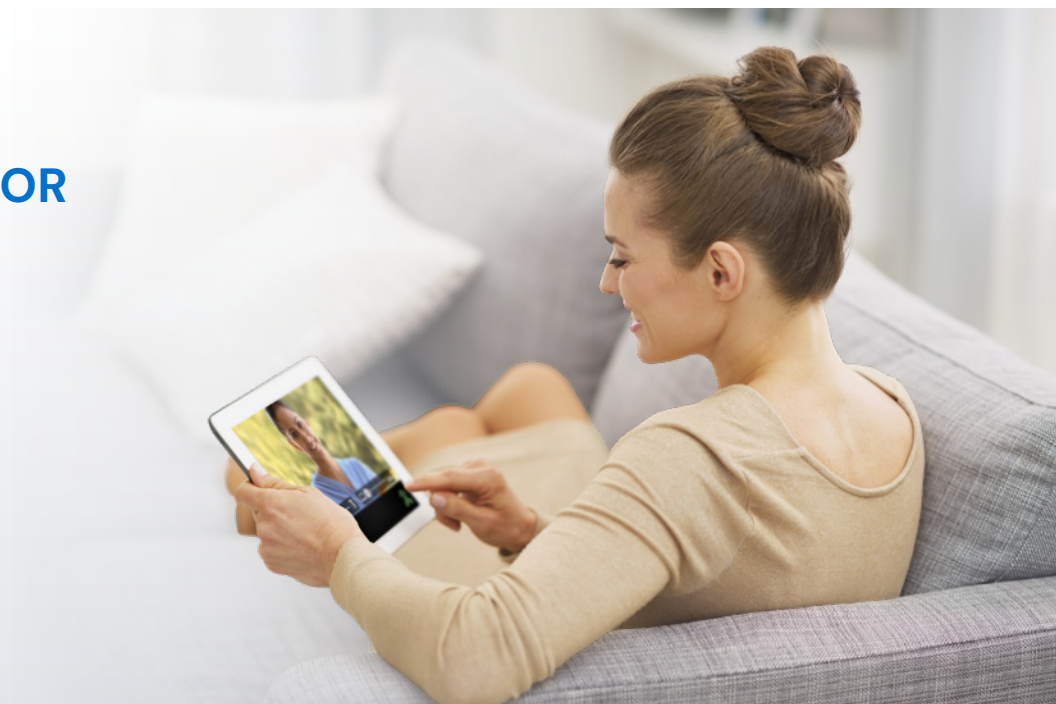

BY-APPOINTMENT BUSINESSES

Busy with an appointment? You can quickly let visitors in without leaving your guests unattended. Great for attorney offices, tax services, salons, physical therapy clinics, or any by-appointment business.

UNLOCK THE DOOR FOR EMPLOYEES

Even if you're not in the office yet, you can easily unlock the door for your employees with varying shifts.

Start with one of three box sets: each includes a door station, an answering station, and a power supply.

JP Series

Video Intercom with Call Partitioning,
Internal Communication,
& Video Monitoring

**Leverage more security benefits than
standard analog intercoms with enhanced
features and modern simplicity.**

OFFICE CONVENIENCE

Place answering stations around the office to identify every visitor in a safe and timely manner. Use the optional adaptor to connect a CCTV camera for broader surveillance of an area.

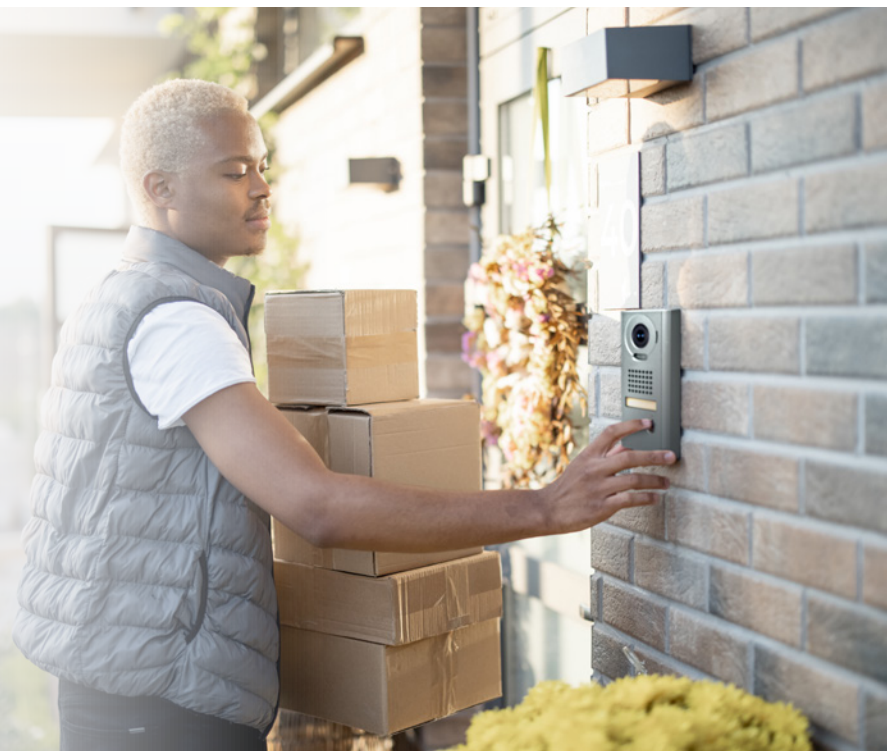

SCHOOL SECURITY

Lock all entrances to control visitor access. When a visitor is approved, the door can be easily unlocked from the main office or principal's desk.

HOME SURVEILLANCE

Install stations on exterior doors for household members to greet their guests or verify drivers when a delivery arrives. Homeowners can use the automatic recording feature to see if anyone pushed the call button while they were away.

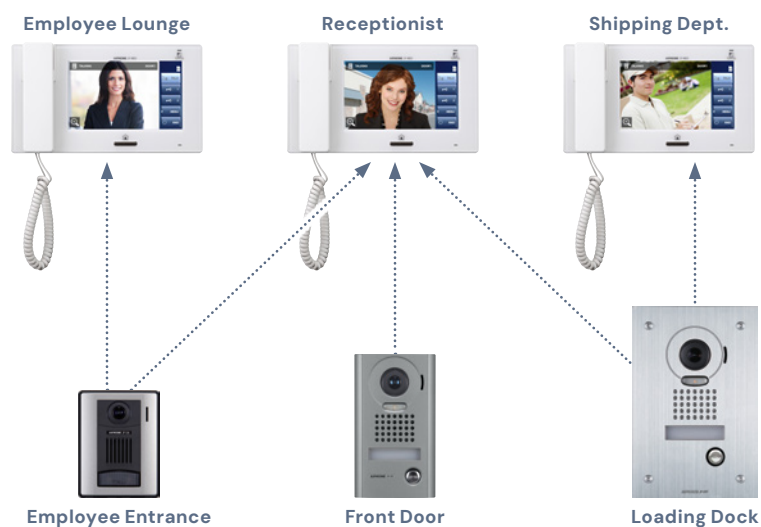

User-friendly menu simplifies calling, monitoring, and everyday operations.

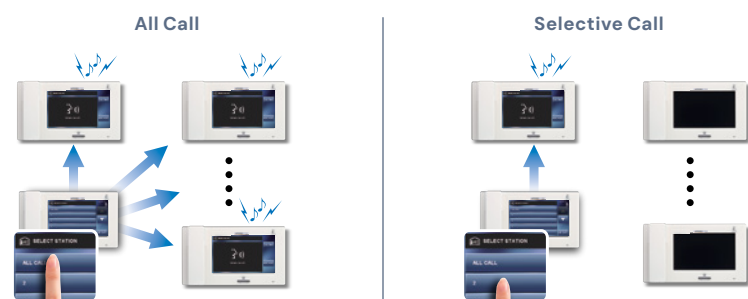

CALL PARTITIONING

- Control interaction and authority between stations
- Designate answering stations to communicate with, and unlock, a specific door or set of doors

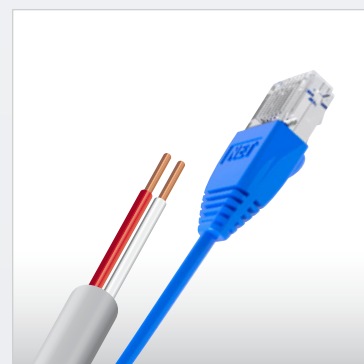

INTERNAL COMMUNICATION

- Call all stations at once or select a single station at a time

VIDEO MONITORING

- See and hear activity from the door stations on all answering stations
- View CCTV camera feed with optional adaptor
- Monitor for 30 seconds, 60 seconds, 120 seconds, or continuously

EASY WIRING

Between door and answering stations:

- Standard 2-conductor cable; doorbell wire
- Can use two-pair from Cat-5e/6 when under 165'

Between inside answering stations:

- Cat-5e/6 cable (homerun or daisy-chained)

VISITOR RECORDING

- Pictures of visitors are automatically recorded
- Transfer images or save directly to a removable SD/SDHC card

Start with one of three box sets: each includes a door station, an answering station, and a power supply.
